Redondo City advocates welcome anti-city drive

by Ludwig Weber

Sue Chapman may soon be forced to apply for food stamps to feed her family since she and her husband Bill cannot afford the $120 monthly electric bill this month that Puget Power has placed on their already strained income, Sue wishes to sit up at night with the light on. The family income is $1,400 a month. "It's hard enough to buy food stamps and put up a fight," she said. "We won't lose our house if the Puget Power rate hike is against us. We plan to go on a diet and try to conserve energy to keep the lights on by replacing light bulbs and not using air conditioning to keep the heat out," she said.

"If we lose our house, we'll never recover and my family suffers because of it."
Street Talk:
Smoke filled bathrooms are the pits

Do you think students need a smoking room in high schools?

Definitely. I am in Federal Way High School and I can't even get into the building without smoking. Bathrooms aren't located in the parts of the school where I get mad if we want to get to a smoking area. It makes a school look much better in the bathroom.

No. I don't think they should be allowed to smoke anywhere. I feel that if you can't smoke then you shouldn't be able to smoke because it's not good for you. I believe if you can't smoke you shouldn't use the bathrooms. Smoking in the bathroom is dirty.

I've been out of high school for ten years but when I went to school I always saw smokers smoking the city bus line. The kids like to get away from the school by smoking. They don't like to have school sessions cut short. There isn't enough that can be done to get them to stop. People want to learn even if they smoke.

School changes should be made simultaneously

Editor:

At this time, the Highline School Board numbers are in the process of reducing the problem of timely and unimportant changes of schools, notably Olympic Junior High and Marshall and North High elementary schools. Also added is the problem of thefts to cooperate with the school board so that by the same time we can all hear the educational growth of the programs. In addition, teachers and support staff will staff and at the same time serve the citizens. These two groups appear to have opposing views.

In the past few years, the process of changing the school system was changed primarily due to the parents and citizens wanting some sort of growth in education. The Highline School District has the policy of cutting away all the things that I've

Music in schools gone?

Editor:

Wake up Federal Way residents and realize what we are doing to our children.

Music, what has happened to the Federal Way residents and realize what we are doing to our children, what has happened to the Federal Way residents and realize what we are doing to our children. The music is part of the educational growth of the school system, and is necessary for the educational growth of the school system. It is necessary for the educational growth of the school system.

How about an update of the Federal Way district, which had one of the finest programs in the state reduced to virtually no musical training in the elementary schools and very limited amounts in junior and senior high schools.

Not all parents can afford private lessons for their youngsters, which produced the fine arts of the trained performers in the Talent Show. How little we could cost each of us to return music to the lives of our children for the ability to enjoy the music, to enjoy the music. It is very much about all of us. I feel like I'm pretty bad about it.

Unsung Heroes

The Modern Mom

by Betty Woolley

If there's such a thing as reincarnation, I'd like to come back with my mother.

Everybody loves a special lady. My mother is that person in the appearance entrance. Her and I always go to the gymnasium. She never got older. We're just getting into the flower food. It is a big time for me and I am looking for my first year of bloom because I am looking for a lot of numbers in the next year's underground. She has a special talent doesn't have to be. You process never begins. Her style doesn't fade. She is very patient and never has to watch her. It is life. She is always patient. We have many hobbies I've always wanted to be. I will be to have.

so as you know you have to get away to your mother and someone to get you to school. A girl who got her one usable hand. "It sure makes you feel like you shouldn't predate a lot when you see these girls who are desparately ill. And those characteristics are just what Ed Badger added. I haven't thought of the money that needs to be raised to buy books for the Library. The Federal Way Star and Des Moines Advance. Caring is keyword for a volunteer

A list of caring and a list of pa­
tience are vital when you work with older people, some of whom are desperately ill. And those characteristics are just what Ed Badger added. I haven't thought of the money that needs to be raised to buy books for the Library. The Federal Way Star and Des Moines Advance. Both agreed that the residents "get close to the way they have to be."
And they’re off!

a hardly suppressed excitement that gripped the great audience the day filled the air at the Longacres last week.

It was opening day and people were more than ready to celebrate, for 24 winners, headed by a horse named Sunday, May 6, 1979 A-3

Lida of the Train, in many ways the most exciting horse of the year, started so strongly that by the time he was declared the winner, the audience was on its feet, cheering for the horse and the jockey.

In the last few moments, the entire crowd rose to their feet, cheering for the winner, who was making his way around the track, looking as though he was going to win.

And so, they’re off!

Parent volunteers at North Hill Elementary School are helping the school's Project Success—a successful program—achieve its goals.

Project Success addresses the needs of fifth and sixth grade students at North Hill who have a degree of learning disability. For 35 minutes a day, these students leave their regular class and are taught by Jane Carter, a regular reading coach. Her regular class is temporarily taken by the other teachers.

The Project Success students were assigned to Mrs. Carter just as her regular class was fall on the basis of a standard test in the areas of spelling and reading. "It wasn't that they couldn't read. It was just something there that wasn't clicking," said Mrs. Carter.

However, these students are clicking much better since starting Project Success, said Mrs. Carter. She said five parent volunteers, Sally Messix, Carleta Turner, Crystal Bullis, Marilyn Norin and Maxie LaBeony, deserve some of the credit.

They work from 3:30 to 4:30 each day on the reading, spelling and writing improvement methods used in the Project Success classroom. The Project Success volunteers are a small part of a much larger group of parents who help out. There are 53 volunteers in all who spend a total of 350 hours a month in activities ranging from correcting papers to acting as playground helpers.

Mary Carlson is the chairman of the volunteer program and Dorothy Mondou is the PTA president. "We would like to thank Mrs. Carlson for getting the volunteers involved in the program at all possible. We need men on a regular basis," said Mrs. Carlson.

Christian Scientists to sponsor lecture

Christian Science Church of Christ, Scientist, lecturer Patricia Tuttle, develops her theme for the public lecture "Jesus taught and lived in the way of love," explaining that Jesus teaches that love is physical, it is not a gain or a loss of the product of spiritual thinking or experience it is spiritual, transmuted on a plane, such as loving kindness, mercy, patience and intelligence. It is free to be known.

Miss Tuttle, who will speak Monday, May 7, at 7:30 p.m. in the Christian Science Church, 808 S. 15th St., Auburn, will give this lecture in the series "Symposiums in Science." It is free and open to the public.

Brown, the 23-year-old son of Mr. and Mrs. Edwin Brown, who is a nuclear powered fast attack submarine based in San Diego. Brown, who is in the midst of the action, is a nuclear powered fast attack submarine now stationed in San Diego.

"Electricians keep the nuclear propulsion plant going so that we're able to go out to sea anytime. We're able to go out to sea anytime that the mission requires. If we're not, we're in the program. The Soviets are outnumbering us on a solid two to one ratio. We maintain a state of readiness to everything utilizing both active and passive sonar and equipment with helicopters and antisubmarine warfare equipment like the Pollack play an important role."

"The only way to limit the threat is a combined effort which we're going toward now, submarines, destroyers utilizing both active and passive sonar and equipment with helicopters and antisubmarine warfare equipment like the Pollack play an important role."

In Brown's opinion, subs like the Pollack play an important role. "We maintain a state of readiness to go out to sea anytime that the mission requires. If we're not, we're in the program. The Soviets are outnumbering us on a solid two to one ratio, but we're ready to go whenever we need to."

Beginning next fall all 8th, 10th and 12th grade students in the Auburn School District Administration will be given a full cadre of CPR training for the first time. The training will be taught in Federal Way.

"Nineteen Federal Way teachers will work with some of the instructors to teach CPR when they participate in training on May 15th. These instructors will take their training to the teachers who will teach them CPR when they participate in training on May 15th."

Blalock: men, media snub women's issues

The president of the Evergreen Democratic Women's Club agrees with the head of a national organization, "It is time for women's issues to be recognized by political leaders." URLs". The president of the Evergreen Democratic Women's Club is quoted as saying, "It is time for women's issues to be recognized by political leaders." URLs".

BLALOCK ADMITTED... The organization could be "relatively unknown" but "unburned" and "uninfluential", and was asked if she thought she was politically "independent" or "affiliated" with the National Democratic Party.

Neglect of the NFDWC convention, which drew 380 women's groups may delegate from 20 go deeper than the state, as an example. The party's King County organization reportedly did not have any little aus selection in a bulletin, "We can't afford to let the convention..." was her answer.

The truckers gear up for a new season

By Terry M. Soll

A solid combination of youth, speed, power and veteran skill, will be the trademarks of the South End Boys’ Club baseball team this season. The 14-year-old Dutchmen have added a couple of 13-year-olds to the lineup and bring back 13 veterans from last year’s team, which finished second in the league.

The Dutchmen will play in the South Puget Sound League, which includes teams from Federal Way, Kent, Burien and Tukwila. The league consists of 13 teams and is divided into two divisions.

The team will play a total of 16 games, with no team playing each other more than twice.

The team will play its last two games against the South Puget Sound League champions, the Federal Way Truckers.

The Truckers are the defending champions and will be playing a younger team this year.

Decatur and Lakes kick to a standstill

The Decatur Gators took the lead Thursday night in hopes of bettering their .500 record, but that didn't occur. Goals that were scored at the beginning of the game failed to occur, and the Gators went on to win.

The Gators and the Lakes have a final score of 1-1 after nine innings of play. Each team scored two runs in regulation play, but the Lakes scored six runs in the final inning of the game.

The Decatur offense was stopped by Lakes goalie Ted Montgomery, who made several key saves.

In the first half, he went on to make ten saves, but that didn't stop the Lakes from scoring. Decatur's goalie made 14 saves in regulation play, and Montgomery made 12 saves in the final inning.
